

Return to Campus Questionnaire

In support of Western's commitment to Workplace Health and Safety and on the recommendation of the Middlesex London Health Unit, all faculty, staff and students are asked to complete this questionnaire prior to each shift/visit to campus.

Completion of this questionnaire will help you to decide whether it's safe for you to return to campus without potentially exposing others in the campus community to COVID-19. If you answer "yes" to any of the following questions, please do not come to campus until you have consulted with a health care practitioner.

Subject to your supervisor's agreement, individuals who are not able to return to campus may still be able to continue working from home.

We sincerely thank you for your participation in this questionnaire and for your part in ensuring a safe and healthy community.
